

ACCEPTABLE USE POLICY

MISD Network Marion Independent School District

STATEMENT OF POLICY

In making decisions regarding student access to the school district computer network and to the Internet, the Marion Independent School District considers its own stated educational mission, goals, and objectives. Electronic information research skills are now fundamental to the preparation of citizens and future employees. Access to the school district computer network and to the Internet allows student access to thousands of libraries, databases, bulletin boards, and other resources while exchanging creative ideas and images with people around the world. The Marion Independent School District expects that faculty will blend thoughtful use of the school district computer network and the Internet throughout the curriculum and will provide guidance and instruction to students in their use.

EDUCATIONAL PURPOSE

The Marion Independent School District provides students with access to the MISD Network including Internet access. The purpose of the network is not merely to provide students with general access to the Internet, rather an educational purpose which includes use of the network resources for classroom activities and high-quality, self-discovery activities. Users are expected to use Internet access through the MISD Network to further educational and personal goals consistent with the mission of the school district and school policies. Uses which might be acceptable on a user's private personal account on another system may not be acceptable on this network.

USE OF THE MISD NETWORK IS A PRIVILEGE

The use of the MISD Network and access to use of the Internet is a privilege, not a right. Depending on the nature and degree of the violation and the number of previous violations, unacceptable use of the MISD Network or the Internet may result in one or more of the following consequences: suspension or cancellation of use of access privileges; payments for damages and repairs; discipline under other appropriate school district policies, including suspension, expulsion, and civil or criminal liability under other applicable laws.

The Marion Independent School District will have a firewall in place that will monitor and log Internet activity as well as block unacceptable websites as reviewed by faculty, administration, or the Information Technology Department. In addition, any Internet activity will be monitored by a faculty member or other designated district employee to guarantee compliance with the Children's Internet Protection Act (2001). Although the Marion Independent School District is taking reasonable measures to ensure students do not acquire objectionable material, the Marion Independent School District cannot guarantee that a student will not be able to access objectionable material on the Internet.
